### DadGear Messenger Bag

Here's a diaper bag that won't cramp dad's style! With a sleek, traditional bike messenger look, the DadGear Messenger Bag lets dad stylishly carry all his baby care essentials. This bag features DadGear's innovative "hands free" approach so dad can tend to the baby without ever having to set the bag down.

With a removable front panel, cleaning the Messenger Bag is quick and easy. This panel is also interchangeable with other front panel designs so dad can change up his look (additional panels sold separately). The front panel has a large zipper pocket for dad to store his things. Other smart features include an easy access wipes window that fits most brands of travel wipes, two bottle pockets (one on each side) with access from the inside or outside of the bag, stroller hangers and a slim design changing pad that's in a hidden pocket in the back of the bag.

Inside the DadGear Messenger Bag is a large main pocket with lots of storage room and two smaller pockets ideal for diapers and food. Two tall pockets in the front on both sides of the wipes window and are ideal for storing creams and lotions. A wide strap and three-point adjustable shoulder harness give dad a secure fit. Maintaining DadGear's high quality standards, the Messenger Bag is made with heavy-duty fabrics and durable hardware.

With a variety of cool colors and styles available including Professional, Hawaiian, Retro Stripe and Center Stripe, dad will love sporting this bag around town.

**Included when you buy this product today on TinyRide.com**
