

activities

Miles of white-sand beaches, ironwood forests and a tropical countryside await your exploration. The world's most legendary surf spots, Sunset Beach, the Banzai Pipeline and Waimea Bay are all just minutes away. Turtle Bay Resort is surrounded by the best Hawaii - and nature - has to offer.

In the winter, waves up to 30 feet break offshore. From December to April watch the mighty and playful Humpback whales from your lanai as they appear during their annual migration from Alaska.

Of course, you can simply stay put and soak up the sun on the resort's pristine beaches or relax beside the beautifully landscaped beachside pool. Whatever you decide to do at the resort, on the beach or around the island, the activities at Turtle Bay Resort will make lasting vacation memories.
